

Waterproof LED Module

BL-LM

BRITE LED TECH PTY LTD PRODUCT

1 Year Warranty

Available in Cool White, Warm White, Red, Blue, Green or Yellow

Main Beam at 120 Degree

1 Module of 3 Piranha style LEDs Gives a light output compared too a 8w incandescent globe

1 Module in choice of colour, 12 Volt DC with 3 Piranha LEDs, shines at 120 degree giving a good spread of light with no heat.

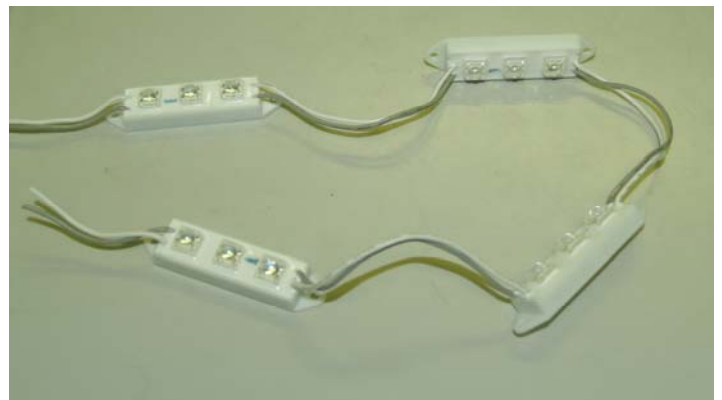

Fully waterproof with resin seal over making them ideal for external use and on boats, display signs, Models, etc

Can use Adhesive on Backing to mount or screw down module using lugs at each end (no adhesive or screws supplied) , Low power consumption no heat and quick response to illuminate

Can simply purchase per module or multiple modules which will be offered as a complete length which you can cut into segments needed, each module has about 80mm of wire between each module, so if you purchase 1 module the length of wire will be 40mm at each end of the module purchased or when multiple purchased will be offered as a chain of modules, (when available as a continuous length).

Easy to Install and wire up just need to connect positive and negative feeds to one end with 12v DC and away you go, there are polarity sensitive and polarity protected so if you connect up the wrong way these will simply not work but not fail the unit .

	Length	62 mm or without end mounting tags 47mm
	Height	13mm
	Width	15mm
	Voltage	12 Volt DC
Power Draw Tested 1 meter	@ 13.8 V	0.02 Amps
	Packing	1 Module

Can have in continuous length when available, we will always attempt to offer in a continuous length when multiple modules purchased.
